October 14, 2026

Dear PIDTC Centers:

The PIDTC will hold the annual Education Day beginning on March 9thth and ending on March 10th, 2027 prior to the start of the PIDTC Annual Scientific Workshop in NYC, NY. Please note there will be no option for virtual attendance.

- **Education Day**: Afternoon of **Tuesday March 9, 2027** through the morning of **Wednesday March 10, 2027**
- **Scientific Workshop:** Afternoon of **March 10, 2027** through **noon, March 12, 2027**

The purpose of the PIDTC Education Day is to provide fellows in training and junior faculty (within 5 years of faculty appointment) an opportunity to explore unique aspects of diagnosis and management of primary immunodeficiencies together with leaders in the field.

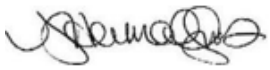

The educational format is a mix of didactic and case-based discussions and will address practical questions to consider in preparation for medical management and cellular therapies for these conditions, with ample time for one-to-one discussions and networking.

Up to 20 trainees will be accepted for in-person case presentations. The top 2 scoring presentations will be selected to present their cases to the larger PIDTC Community as part of the Scientific Workshop.

Those attending Education Day will be co-registered for the PIDTC Annual Scientific Workshop; financial assistance for travel and lodging will be available to accepted Education Day applicants.

Please see application details on the second page. Applications will be due December 7, 2026.

Sincerely,

Jennifer Heimall, MD

PIDTC Education Day - Application Form

Application consists of:

1. Completed application form through link below
   PIDTC Education Day Application Form 2027 – Fill out form

2. Single page Case Report on SCID, leaky SCID, CGD, WAS, PIRD, or other significant immunodeficiency disorder raising provocative diagnostic and management issues sent to Lisa Lim.
3. Single page letter of support from either the PIDTC Site PI, Fellowship Training Program Director or Section/Division Chief sent directly to Lisa Lim. Only one letter to be submitted please.

Send 1-page Case Report and Letter of Support to Lisa Lim by December 7th 2026 via email Lisa.Lim@ucsf.edu

Notification of acceptance and mentor assignments will be sent in early January 2027.
